-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

The information disclosure statement filed 12/9/2003 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered.

Claim Objections

Claims 1-5 are objected to because of the following informalities:

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Tubman et al. (USPN 5,820,384; hereinafter Tubman).

Regarding claim 1, Tubman discloses a karaoke service method by mobile device, the method comprising the steps of: generating karaoke contents including karaoke event data therein; and synchronizing the karaoke event data by executing the event included in time order in said music contents according to a timing indicated by synchronization data embedded in song data (See Col. 3, lines 15-26; Col. 5, lines 57-67)

Regarding claim 2, Tubman discloses a karaoke service system by mobile device, the system comprising: a memory for storing karaoke contents including karaoke event data therein; and a synchronizing means for synchronizing the karaoke event by executing said event included in time order in said karaoke contents according to a timing indicated by synchronization data embedded in song data (See Col. 3, lines 15-26; Col. 5, lines 57-67; Col. 15, line 40)

Regarding claim 3, as best understood, Tubman discloses a system wherein the synchronizing means comprising: a sound generator for responding interrupt signal when receiving said synchronization data; and a multimedia processor for executing events notified by the interrupt signal that give a event occurring timing (See Col. 3, lines 15-26; Col. 5, lines 57-67)

Regarding claim 4, Tubman discloses a system wherein the events are grouped into some group and are described in time order (See Col. 3, lines 15-26; Col. 5, lines 57-67)

Regarding claim 5, Tubman discloses a system wherein the events can be divided into a number of event zones by executing a reset event (Col. 4, lines 35-50).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

Tsai et al. (USPN 6,582,235) – disclose a karaoke system.
